

BUGS

Winning adds to losses count as well as losses

See all bots button doesn't work

Test Case

Play game and ensure it functions

run npm start in server, navigate to <http://localhost:3000/>, click draw, select two robots, click duel, play until you have both won and lost at least once

Fix losses counter

Bug Report

Winning or losing both increase losses counter

medium priority

run npm start in server, navigate to <http://localhost:3000/>, click draw, select two bots, play until you receive the winner feedback, check losses counter

For the winner counter to increase by 1

The losses counter increases by 1

Mac os, chrome web browser

Bug Report

See all bots button doesn't work

High priority

run npm start in server, navigate to <http://localhost:3000/>, click see all bots, check console

An array of all the bot cards is displayed

Nothing happens except an error in the console

Mac os, chrome web browser
